The Great Beasts

Official Developer Library - Document 012

Definitive Edition

Ancient Dragon

Ancient Dragons are among the oldest beings in Valekor. They are lords of the skies and fire, feared by kingdoms and respected by champions.

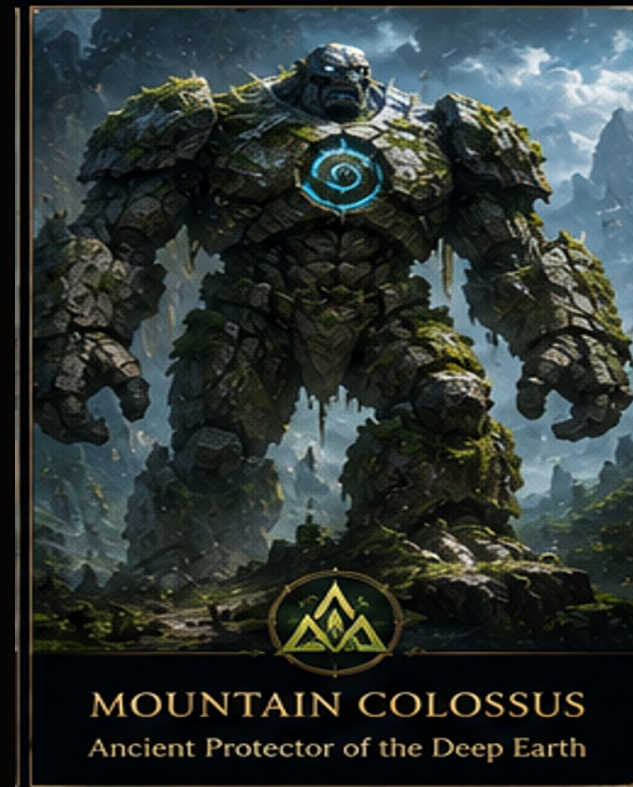

Frostfang

Frostfang is a guardian of the Northern Wastes. Its howl freezes the wind and warns travelers that the old wilds still live.

Mountain Colossus

The Mountain Colossus is an ancient protector of the deep earth. Some believe these giants are older than the kingdoms themselves.

Skyreacher

Skyreacher is a winged beast of honor and justice. Its shadow over the battlefield marks the arrival of judgment.

Tidal Behemoth

The Tidal Behemoth rules the endless seas. Ships vanish where it sleeps, and coastlines remember its wrath.

Verdant Stag

The Verdant Stag is the spirit of the eternal forest.
Wherever it walks, life returns and corruption retreats.

Nightmare

Nightmare was born from shadows and fear. It hunts broken places where old magic still bleeds into the world.
