# Monsters & Creatures of Valekor

Official Developer Library - Document 019

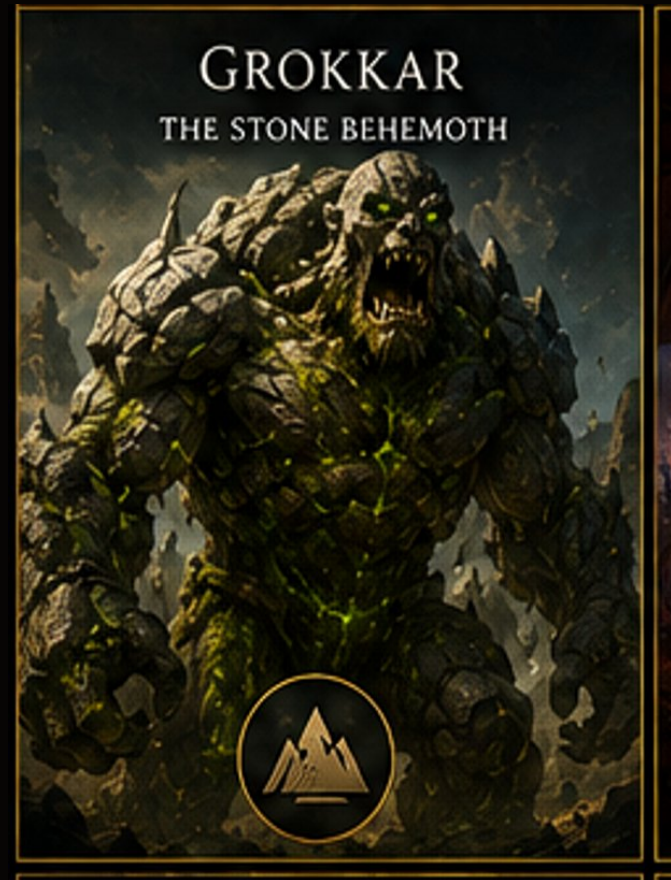

Definitive Edition

---

# Grokkar

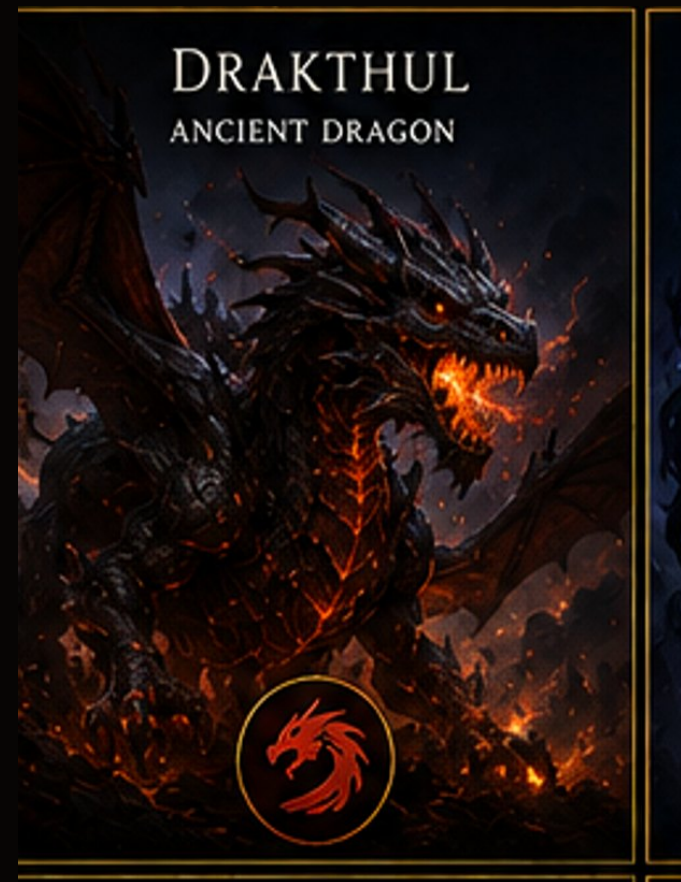

The Stone Behemoth. A living mountain of rage and ancient earth, feared by armies and avoided by travelers.

---

# Drakthul

Ancient Dragon. A creature of fire, hunger and old power whose name is whispered in ruined kingdoms.

---

# Shadowwraith

Void Stalker. A horror born from darkness that hunts where light cannot reach.

---

# Feralor

Wild Hunt Beast. A predator of the deep forests whose roar warns that the old wilds are still alive.

---

# Bloodmaw

Abyssal Terror. A deep-sea monster from forgotten waters, feared by sailors and coastal kingdoms.

---

# Cryptguard

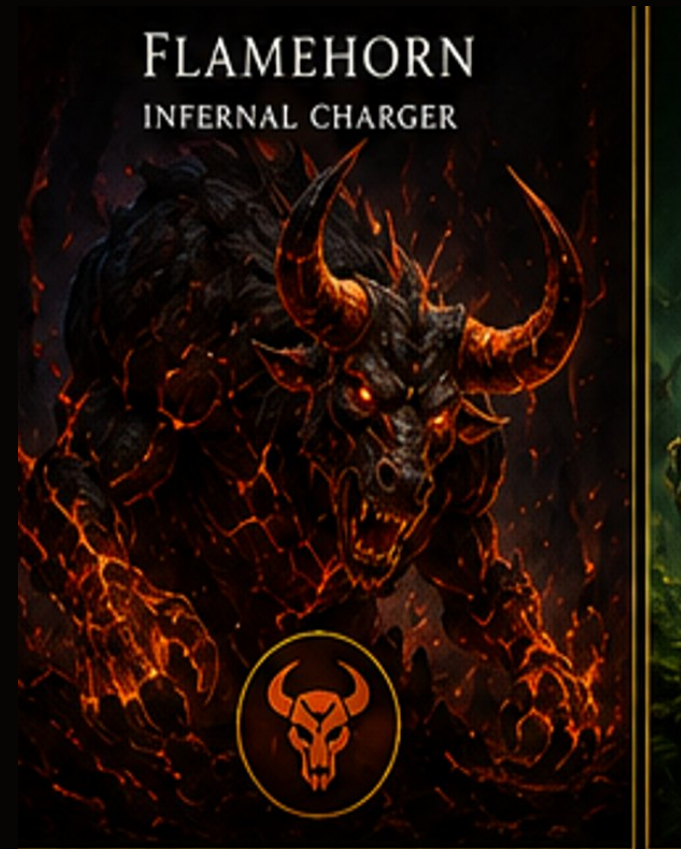

Undead Sentinel. A cursed guardian that protects tombs, ruins and secrets that should remain buried.

---

# Flamehorn

Infernal Charger. A burning beast that charges through ash, smoke and battlefields.

---

# Venomspine

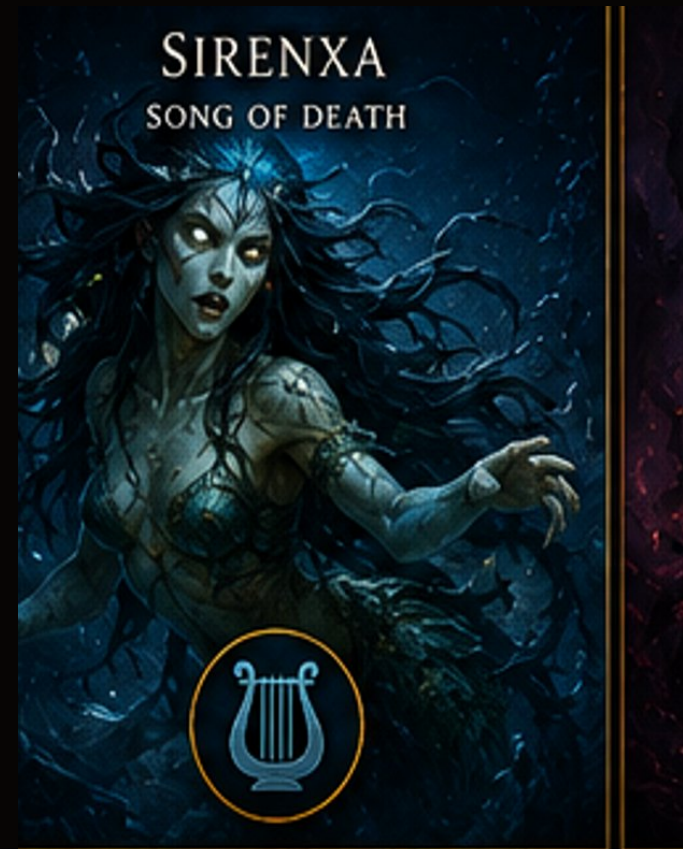

Toxic Hunter. A creature of poison, camouflage and patient violence.

---

# Sirenxa

Song of Death. A deadly creature whose voice leads the careless into the dark waters.

---

# Chaos Spawn

Born of Corruption. A twisted force of broken magic, chaos and nightmare.
